## Get Ready to Make Some Waves

You can do so much more than just take a dip. With the Fastlane Sport XP current system in your backyard pool, you can enjoy an uninterrupted swim, a total-body workout, and watching your kids have more active pool fun than you ever thought possible!

The Sport XP's resistance current can transform almost any traditional pool. Putting the water in motion creates new fun and fitness opportunities for the whole family. Our Sport XP current adjusts to speeds suitable for most swimmers. (For advanced and competitive swimmers, we recommend the [Fastlane Pro model](#).)

Completely free of bubbles and turbulence, our patented technology generates a smooth, airless current. For play, exercise, or a leisurely swim, the Fastlane Sport XP current system brings a bigger, bolder experience to your pool.

**“It's fun to put the kids in. You can really crank it up and they swim around in it.”**
